

Affidavit of John Campa

Petition to Revive U.S. Patent App. No 09/574,738 under 37 CFR 1.137(a)

I, John Campa, hereby state and declare as follows:

1. I am employed as intellectual property counsel at F5 Networks, Inc ('F5'). I began my employment on July 5, 2006. I am authorized to testify as to the information set forth in this Affidavit, including all facts relating specifically to the discovery of abandonment and efforts to revive U.S. Patent Application No. 09/574,738, the rights of which are owned by F5. I make the following statements upon information and belief based upon my personal knowledge and/or review of F5's records of events that occurred prior my joining F5.
2. On or before July 23, 2003, F5 retained the services of Graham & Dunn, P.C., to assist in an agreement to purchase assets from uRoam, Inc., ('uRoam').
3. On or before July 23, 2003, Graham & Dunn, P.C., was provided with material(s) related to the acquisition of assets from uRoam by F5. A copy of these materials, attached hereto as Exhibit A, indicates that the assets to be acquired from uRoam by F5 included U.S. Patent Application No. 09/574,738, entitled "Method and Apparatus for Accessing a Computer Behind a Firewall".
4. On or about July 23, 2003, Graham & Dunn, P.C., produced an Assignment of Patents document as part of their handling of the asset purchase agreement on behalf of F5. A copy of this Assignment of Patents document is attached hereto as Exhibit B. Though not realized at the time, this Assignment of Patents document lists an incorrect application number 09/547,738. A copy of this Assignment of Patents document was signed on July 23, 2003 as part of the asset purchase agreement process.
5. On or about September 23, 2003, F5 received a copy of a Record of Assignments document which had been filed with the USPTO by Graham & Dunn, P.C., on behalf of F5. This Record of Assignments document, attached hereto as Exhibit C, also lists the incorrect application number 09/547,738, instead of the correct application number 09/574,738. This Record of Assignments document includes a copy of the Assignment of Patents document, Exhibit B, dated July 23, 2003, which also lists the incorrect application number, 09/547,738, as discussed above. The correct application number 09/574,738 is not listed on this Record of Assignment, nor is it listed on the Assignment of Patents document.
6. On or about April 22, 2004, F5 received a copy of a Notice of Recordation of Assignment document from Graham & Dunn, P.C., which was sent from the USPTO to Robert Cumbow of Graham & Dunn, P.C. This Notice of Recordation also lists the incorrect application number 09/547,738. The notice indicates that the assignment of inventor's interest, though incorrect, was recorded starting at Reel/Frame 014524/0012. A copy of this document is attached hereto as Exhibit D.

Affidavit of John Campa

Petition to Revive U.S. Patent App. No 09/574,738 under 37 CFR 1.137(a)

7. On or about June 16, 2005, F5 retained the services of Darby & Darby, P.C., to handle prosecution of certain U.S. Patent Applications. The application numbers for these patent applications were transmitted to Darby & Darby, P.C., via email in the form of a copy of the Notice of Recordation of Assignment document, Exhibit D. Again, this document listed the wrong application number 09/547,378. A copy of this email is attached hereto as Exhibit E.
8. On or about June 17, 2005, F5 received copies of documents filed with the USPTO by Darby & Darby, P.C. These documents included a copy of a Power of Attorney to Prosecute Applications Before the USPTO document, SB-80, along with a Statement under 37 CFR 3.73(b) that referred to application number 09/547,738. Copies of these two documents are further attached hereto as Exhibits F and G, respectively. On Exhibit G, though the application number 09/547,738 on this statement is incorrect, the correct title for application number 09/574,738 is listed as "Method and Apparatus for Accessing a Computer Behind a Firewall".
9. The incorrect application number, 09/547,738, as recorded in the Assignment of Patents document, Exhibit B, resulted in subsequent care and due diligence to be afforded to application number 09/547,738. Such care and diligence is at least demonstrated by the Power of Attorney to Prosecute Applications Before the USPTO document, filed on or about June 17, 2005, and attached hereto as Exhibit F. As a result of the incorrect application number being listed on Notice of Recordation of Assignment Document, Exhibit D, which was forwarded to Darby & Darby, P.C., the document(s) of Exhibits F and G were directed to the incorrect application number 09/547,738.
10. On or about October 2, 2007, F5 received a copy of a Patent Assignment document, attached as Exhibit H, which was filed with the USPTO by Darby & Darby, P.C., for application number 09/574,738. This document correctly identifies F5 as the assigned owner of the application. This submission included a copy of a redacted Asset Purchase Agreement signed on July 23, 2003, which indicated the rights to the correct application number 09/574,738 as being acquired from uRoam by F5.
11. On October 5, 2007, F5 received a Power of Attorney and Correspondence Address Indication Form that was filed in application number 09/574,738 by Darby & Darby, P.C. This document indicated Darby & Darby, P.C., as being as appointed by F5 to prosecute this application. A copy of this Power of Attorney and Correspondence Address Indication Form is attached as Exhibit J.

Affidavit of John Campa

Petition to Revive U.S. Patent App. No 09/574,738 under 37 CFR 1.137(a)

12. On October 17, 2007, I received an email from John W. Branch of Darby & Darby, P.C., indicating that the status of application number 09/574,738 was first learned through a phone call by Darby & Darby, P.C., with the Office of Initial Patent Examination ('OIPE'). The email indicated that, through this telephone communication, verbal indication was given by the OIPE that the Power of Attorney and Correspondence Address Indication Form, submitted October 5, 2007, Exhibit J, had not been processed because the application had gone abandoned. Neither visual confirmation of this status, nor review of a related Notice of Abandonment, was possible at this time because the application had not been scanned into the USPTO Patent Application Information Retrieval system, nor had F5 or appointed representatives of F5 received such notice. A copy of this email, as received, is attached as Exhibit K.
13. On or about December 27, 2007, I sent a letter to the law firm Blakely, Sokoloff, Taylor, and Zafman, LLC ('BSTZ') requesting copies of their application file for application number 09/574,738 to be sent to John W. Branch at Darby & Darby, P.C. The law firm Blakely, Sokoloff, Taylor, and Zafman, LLC ('BSTZ'), is a law firm that was retained by uRoam to handle prosecution of application number 09/574,738. A copy of this letter is attached hereto as Exhibit L.
14. On or about January 8, 2008, I learned that Darby & Darby, P.C., received copies of the application file from BSTZ. Through communication with Darby & Darby, P.C., I learned that the formal date of abandonment for application number 09/574,738 was August 22, 2004.
15. At the date of the abandonment for application 09/574,738, F5 was the sole owner of interest in the application. However, because of the error made in the Assignment of Patents document, Exhibit B, which was replicated in the Record of Assignment filed on or about September 23, 2003, Exhibit C, the power to prosecute the application had not been properly assigned to any other party. To the best of my knowledge, no party holding proper ownership of the application, including F5, was aware of the abandonment of application number 09/574,738 until on or about October 17, 2007. To the best of my knowledge, no party with the power to prosecute the application, including F5 and Darby & Darby, P.C., was aware of the abandonment of application number 09/574,738 until on or about October 17, 2007.
16. At the date of the abandonment for application 09/574,738, F5 believed that due diligence was being afforded this application, even though the proper care and handling of the application was actually being afforded to the wrong application because of the error in Exhibit B. The understanding that due diligence was being afforded to the application is validated by the receipt and filing of documents such as the Notice of Recordation Assignment document, Exhibit D, as well as the Statement under 37 CFR 3.73(b), Exhibit G.

Affidavit of John Campa

Petition to Revive U.S. Patent App. No 09/574,738 under 37 CFR 1.137(a)

17. To the best of my knowledge, proper and timely notifications of changes in the correspondence address for the correct application number were submitted by to the USPTO by representatives appointed by F5. The conclusion that such timely notifications were being submitted to the USPTO is validated by various documents, such as the Record of Assignment, Exhibit C, and the Power of Attorney to Prosecute Applications Before the USPTO document, Exhibit F.
18. To the best of my knowledge, the data entry error reflected in the Assignment of Patents document, Exhibit B, is the entire cause of the delay at issue. To the best of my knowledge, this error arrived unexpectedly and through unforeseen fault or imperfection of agencies employed by prior counsel.
19. My reliance on the correctness of the application numbers listed in the asset purchase agreement documents, including Exhibit B, represents the care and diligence that a prudent and careful person would observe in carrying out his or her most important business. The nature and source of the error justified the employment of no additional safeguards to ensure that the data on the record of assignment had been entered correctly.
20. I am rectifying this situation under all other conditions of promptness upon discovery of the error. Periods subsequent to the filing of a proper Record of Assignment, Exhibit H, reflect the time period during which efforts were continually being made to ascertain the status of the application as well as determine the details and cause of the original error. Such periods include amounts of time needed to collect information and records from a notable number of different parties, as well as obtain the identity and extent of involvement of these parties.

I make these statements under penalty of perjury and hereby swear that the foregoing is true and correct to the best of my recollection.

John Campa, Intellectual Property Counsel
F5 Networks, Inc.

Subject: RE: Your Ref.: 10.095; Our Ref.: 08204/0207446-US0 - Power of Attorney of Signature and copy of Recorded Asset Purchase Agreement

john,

We called the OIPE and they said that while the Power of Attorney does show up in PAIR, it has not been processed because the application is currently abandoned. They referred us to the Art Unit that it is currently assigned (2132) to find out if we need to have the firm with the current Power of Attorney to revive the application first or if they will process our Power of Attorney without that step. We have left the Art Unit a voicemail to call us back. We will keep calling until we hear from them.

Re: US Patent App. No.: 09/574,738; Your Reference: 004009.P002

Dear Ms. Portnova:

F5 Networks, Inc. ("F5") acquired the above-referenced patent application from uRoam, Inc. ("uRoam") through an asset purchase agreement dated July 23, 2003 ("agreement"). A copy of the USPTO Assignment Recordation Notice and filed Power of Attorney for this application are enclosed for your reference.

Based on correspondence contained in the '738 file received from uRoam, you were handling this matter on uRoam's behalf. F5 has not been able to confirm, however, whether your firm's file copy was ever transferred directly to F5 or its outside patent counsel. As such, we believe your firm may still possess a file copy for this matter, but please advise if this is not the case.

Accordingly, can you please transfer both the physical and electronic files for this matter at your earliest convenience to:

John W. Branch, Esq., Darby & Darby P.C. 1191 Second Avenue, Suite 2000,
Seattle, Washington 98101.

We would appreciate your prompt attention in handling this file transfer. Thank you in advance for your cooperation. If any questions remain, please contact me directly.

Best regards,

John Campa
